

GREEN IS THE COLOR AT DREAMCITY, AMRITSAR

Our Vedic wisdom extolled the virtues of forests and trees as life enhancers. Trees and greens sustain ecological balance when standing tall and protect and serve as wood after decay. In ecologically challenging times such as now, when rainforests have thinned down from 14% of the earth's surface to less than 6%, we need to make lifestyle choices that are mindful of our environment.

DreamCity, Amritsar aims to make your lives greener whilst doing its bit for the environment and for our next generation.

We hope that at DreamCity, Amritsar, your lives shall enter a greener chapter, which your next of kin would uphold and nurture.
